Dear Dee,

**Re: reference**

I am happy to be able to provide a reference for your service:

Dee has managed transcription for me of interview data recorded on audio tape for research investigating dietitian's communication skills. Dee has patiently organized transfer to electronic format, provided a rapid turnaround time, and accurate transcription.

She has remained entirely un-perturbed by panicky calls or emails regarding urgent deadlines and has been particularly patient in dealing with the vagaries of the University finance system.

In addition to providing a highly professional and efficient service Dee is also friendly and easy to work with – qualities that to me are as important as technical skills!

I would be very happy to recommend Dee's service.
